SUSTAINABILITY AT COLMANS SEAFOOD TEMPLE

At Colmans we are a family owned and operated business who are precedent-setting in our responsibility to sustainable fishing, the seafood industry and the environment. We also strive to be an economic, social and charitable asset to our local community.

All our cod and haddock come from sustainable fishing grounds. We use sustainable and traceable seafood.

We are always committed to help with environmental issues and as a pledge to this we are continuously reducing our single-use plastic waste to reduce ocean pollution. We turn all of our waste oil into biodiesel and generate our own electricity through PV micro generation.

We actively source local and seasonal produce, and use day boats to support our local fishing community.

All our packaging is responsibly sourced and our menus all FSC certified.

Don't forget to check our blackboard for today's market fish and our daily specials.

Food Allergies, Intolerances and Special Dietary Requirements

Due to the presence of allergens in some dishes, we cannot guarantee the absence of allergen traces in our menus. Before ordering your food and drinks, if you would like to know about our ingredients please ask a member of our staff.

LOCAL OYSTERS

£2.80 per oyster or £16 for 6

All our oysters are supplied by Lindisfarne Oysters – a family run business established in 1989. The high quality pacific oysters are grown on the seashore within the Lindisfarne National Nature Reserve.
