## SUSTAINABILITY AT COLMANS SEAFOOD TEMPLE

At Colmans we are a family owned and operated business who are precedent-setting in our responsibility to sustainable fishing, the seafood industry and the environment. We also strive to be an economic, social and charitable asset to our local community.

All our cod and haddock come from sustainable fishing grounds. We use sustainable and traceable seafood.

We are always committed to help with environmental issues and as a pledge to this we are continuously reducing our single-use plastic waste to reduce ocean pollution. We turn all of our waste oil into biodiesel and generate our own electricity through PV micro generation.

We actively source local and seasonal produce, and use day boats to support our local fishing community.

All our packaging is responsibly sourced and our menus all FSC certified.
